Hydrocolea (synonym: *Hydrocolea*)

Hydrocolea (synonym: *Hydrocolea*)
BUXACEAE (synonym: *Buxaceae*)

1

Hydrocolea (synonym: *Hydrocolea*)

Hydrocolea (synonym: *Hydrocolea*) is a genus of plants in the Buxaceae family. It contains approximately 10-15 species, most of which are found in the Americas, particularly in South America and Central America. The genus is characterized by its opposite, entire leaves and its small, inconspicuous flowers.

2

Hydrocolea (synonym: *Hydrocolea*)

Hydrocolea (synonym: *Hydrocolea*) is a genus of plants in the Buxaceae family. It contains approximately 10-15 species, most of which are found in the Americas, particularly in South America and Central America. The genus is characterized by its opposite, entire leaves and its small, inconspicuous flowers.

3

Hydrocolea (synonym: *Hydrocolea*)

Hydrocolea (synonym: *Hydrocolea*) is a genus of plants in the Buxaceae family. It contains approximately 10-15 species, most of which are found in the Americas, particularly in South America and Central America. The genus is characterized by its opposite, entire leaves and its small, inconspicuous flowers.

4

The
THOMAS
ROLAND
Gold Medal

AWARDED TO
Jacques Legendre
by the
MASSACHUSETTS
HORTICULTURAL SOCIETY
for
SKILL IN HORTICULTURE

A FEW OUTSTANDING SUBJECTS INTRODUCED BY GULF STREAM IN THE PAST TWO DECADES

When you study the impressive list of unusual plant material introduced by Gulf Stream in the past 20 years, you will readily understand why Gulf Stream has become one of America's foremost sources for outstanding nursery material. This enviable reputation has been achieved because our representatives are constantly traveling to the far corners of the globe, searching and finding new and unusual garden subjects of exceptional beauty and dependability for the American garden.

Our president, Jacques Legendre, is widely recognized here and abroad as one of the world's most informed nurserymen. His expert knowledge is constantly sought after for judging exhibits and horticultural displays both in the United States and overseas. Many notable awards have been bestowed on Jacques Legendre

including the Thomas Roland Gold Medal presented by the Massachusetts Horticultural Society "FOR SKILL IN HORTICULTURE." Last November, he was further honored by the American Horticultural Society, when they awarded him the following citation . . . **"For Service to American Horticulture as a practical nurseryman and plantsman and for keen perception in recognizing the value and usefulness of new selections and promising introductions from abroad."**

The following are just a few of Gulf Stream's famous originations. Take a short side trip and see them in our display gardens and nursery when you are in Washington. It's just a nice drive down the lovely Eastern Shore of Virginia. Visit us for a taste of some of that famous Virginia hospitality.

Crimson King Maple (Plant Pat. No. 735)

Bignonia radicans, Yellow Trumpet

Phlox, Sir John Falstaff

Forsythia, Lynwood Gold

Hypericum, Hidcote

Forsythia, Beatrix Farrand

Tamarix, Pink Cascade (Plant Pat. No. 1275)

Deutzia hybrida, Pink Pompon

Spirea trilobata

Spirea japonica alpina

Stephanandra incisa crispa

Althea, Blue Bird (Plant Pat. No. 1739)

Salix repens, Golden Dwarf

Vinca minor, Miss Jekyll's White

Viburnum opulus compactum

Spirea nipponica, Snowmount

Osmanthus aquifolium rotundifolius

Osmanthus aquifolium, Gulf tide

and the . . .

Spectacular new HEDGE ROSE **Robin Hood**

(Pemb. 27) **Robin Hood** is the most remarkable and beautiful Hedge Rose ever offered. A delightful Musk Rose hybrid that has everything. In spring, blazing clusters of brilliant, cherry-red flowers completely cover the healthy, deep green foliage. Continues to bloom attractively all summer and fall. For small or large gardens, these densely compact plants are

unexcelled. Do not confuse **Robin Hood** with the rampant-growing, poor-flowering, much overrated Multiflora Rose. Available in large quantities . . . priced to sell in volume.

Better Subjects from

ALTHEA, Blue Bird

(Plant Pat. 1739)

Beautiful BLUE BIRD

Gardeners welcome this glorious newcomer to the small and choice list of colorful, all-summer flowering shrubs. Its large, 5-in. flowers stand out like pert saucers. Stunning in shrub plantings or as a specimen. **Blue Bird** is vigorous in growth, upright in habit and blooms prolifically from early summer until frost.

VIBURNUM, Wrightii

VIBURNUM, Wrightii

A handsome shrub from Japan that develops into a hardy, spreading bush 4 to 6 ft. high. From August until October, large cymes of glistening red fruits produce a brilliant display against the metallic green color of the lovely oval leaves. In late fall when the foliage turns a rich crimson, this worth-while shrub is truly dazzling.

SALIX REPENS, Golden Dwarf

SPIREA NIPPONICA, Snowmount

SALIX REPENS, Golden Dwarf

Dainty yellow catkins develop on this superb small shrub in March and April. The foliage that follows is brilliant silver-gray appearing on slender, arching branches. Foliage is conspicuous and of high decorative value. Ultimate height 3 to 4 ft.

SPIREA NIPPONICA, Snowmount

This is one of the most delightful of all spring flowering shrubs. Small clusters of glistening white flowers completely cover the graceful, arching branches. **Snowmount** is particularly outstanding for its nice, rounded bushy habit . . . an improved selection of Spirea nipponica.

OF THE Better Kinds GULF STREAM

MAPLE, Crimson King

The Most Beautiful of All Shade Trees

Include patented **Crimson King Maple** on your list in 1961. It's the only Maple which retains its dark crimson color throughout the spring, summer and fall, creating an exciting and continuous color contrast to lawns and shrubs. Be sure you get the original **Crimson King**. It is easily recognized by the dark, glistening, satiny sheen of its colorful foliage.

VIBURNUM, Setigerum

VIBURNUM, Setigerum

One of the best all-season shrubs. Beautiful, clean, deep green foliage appears in early spring followed by lovely white flowers that add to its charm. **Setigerum** is a colorful sight in late summer and autumn when clusters of brilliant red berries literally cover the entire plant. Rare and choice. Grows to 10 feet when mature.

VIBURNUM, Opulus Compactum

All the objections of the common VIBURNUM, Opulus are missing in this superb dwarf form. **Opulus Compactum** is a rare, free-fruiting dwarf which grows to about 4 to 5 feet high. Compact in habit with umbels of brilliant red berries covering the plant in early autumn.

GULF STREAM NURSERY

BIGNONIA, Yellow Trumpet

BIGNONIA Yellow Trumpet

Here is a colorful vine that is not only hardy . . . but insects don't bother it. The beautiful apricot-yellow trumpet flowers are produced in great abundance all summer long. It will grow freely in ordinary soil anywhere, as long as it has plenty of sunlight. **Yellow Trumpet** is excellent for walls and fences, clinging tenaciously to any support.

20
YEARS
of
PROGRESS

HYPERICUM, Hidcote

FORSYTHIA, Beatrix Farrand

HYPERICUM Hidcote

Hidcote is a gem of a plant for foreground planting where a twiggy shrub about 18 inches tall is desired. This lovely import from the famous Hidcote estate in England is covered with bright yellow cup-like flowers about 2 inches in diameter. Fragrant flowers appear in mid to late June and continue throughout the summer until mid-October. In the warmer sections of the country it will reach a height of 3 to 4 feet.

FORSYTHIA Beatrix Farrand

A spectacular new Forsythia originated at the Arnold Arboretum by Dr. Karl Sax. It is an extremely vigorous grower, making a large symmetrical bush. The deep, golden yellow flowers are over 2 inches in diameter and have striking orange markings in the throat. **Beatrix Farrand** is a hybrid between Arnold Giant, a tetraploid variety and a diploid species. Bud hardy at the Arnold Arboretum.

TAMARIX Pink Cascade

This charming introduction from England is a very valuable shrub because it produces masses of cascading panicles of flesh-pink flowers in late summer when very few shrubs are in bloom. Handsome, rich blue-green foliage. Excellent for seashore planting.
